

“My name is Glenn Holland and I want to tell you about a recent experience I had at Windham Hospital.

“I imagine most people would not want to talk about having to visit their community hospital four times in one year, but thanks to an outstanding Emergency Department, an extremely competent and caring surgeon, and the compassionate follow-up care I received on the Greer Unit, I am on the road to recovery.

Greer Unit Nursing Supervisor Pam Bouten, RN, with Glenn Holland

“There are so many people I want to thank for all they did for me and my family. The Nurses were all so positive and attentive, and the Patient Care Technicians are also a great group of people. Whenever I needed them, they were there. The Housekeeping crews were always smiling and willing to help. Everyone that works at Windham Hospital was so nice and friendly. It really made a difference. Day by day, I am getting better. **Thank you!**”
